

Dalton Piercy Parish Council (DPPC) – Dene Garth Parking Policy

(Effective 9th October 2025)

DPPC recently instructed its contractor to provide white lining for 14 marked parking bays. This was undertaken to provide a maximum number of spaces for a standard sized car for the use of residents and visitors. This policy is intended to ensure safe and efficient use of the parking area available, and all users are requested to be considerate of others when parking in this area.

Use of Parking Spaces

- Vehicles to be parked within a single marked bay.
- Parking horizontally or across multiple bays is not allowed as this reduces parking spaces available.
- Vehicles must not protrude from marked bays onto the public highway.

Conditions of Use of the Parking Area

- Vehicles parked must be road legal, including in date tax, appropriate vehicle insurance and valid MOT certificate. The area cannot be used to keep a vehicle when declaring a vehicle SORN (Statutory Off-Road Notification) to the DVLA.
- Trailers or caravans should not be parked in the bays.
- Commercial vehicles should not be parked in bays unless for the purposes of making a delivery.

Temporary Use for Deliveries of Materials

- Residents requiring the use of a marked parking space for deliveries of loose articles e.g. gravel, sand, building or garden materials, must first seek permission from DPPC, by contacting the Clerk to the Council in advance*.
- Materials to be removed from the area within 24 hours of delivery.
- All residue remaining in the space following delivery to be cleared and returned to clean condition. Any damage to surfaces caused during delivery must be made good by the resident. Failure to clean the area or make good any surface damage may result in restrictions on future permissions.

Monitoring and Fair Use of the Parking area

- This policy is issued to promote fair access to all users and to avoid misuse of the limited car spaces available.
- Persistent misuse may be reported to DPPC for further consideration.
